**Interdisciplinary School of Health Sciences
International Workshop**

***Identifying areas for translating disability research to
primary care services***

**Supported by the
Indo-Norway Cooperation Programme University Grants Commission
Venue: School of Health Sciences, Savitribai Phule Pune University, India
Dates: 17th - 19th of August 2015**

This International Workshop is a scoping exercise to identify research areas for addressing childhood disability, especially those arising due to birth defects, and disability among elderly in India. In Norway, care and services for people with disabilities is usually integrated in the general public services, while in India, disability is addressed through a limited set of services which have little interaction with the public health system. This workshop intends to explore the research lacunae in this field.

Day 1

***Inaugural session : Background to the Conference
Initiates 10.00am 18th August 2015***

Inauguration

10.00 Welcome and about the INCP collaboration

Dr. Anita Kar

10.10 Address by Director, International Centre

Dr. Vijay Khare

10.20 About the collaboration

Dr. Marianne Hedlund
