

DSE4-H II International Relations

Semester 6

Objectives

1. To introduce students to the theory of Non-Alignment, its principles, emergence, and relevance in the post–Cold War world.
2. To develop an understanding of globalization, its evolution, impacts, limitations, and the changing role of the state in the global system.
3. To familiarize students with key issues in international political economy and contemporary global challenges such as terrorism, poverty, environment, and human rights.

Expected Outcomes

1. Students will be able to explain the concept of Non-Alignment and evaluate its relevance in contemporary international relations.
2. Students will understand the process of globalization and critically assess its economic, political, and social impacts.
3. Students will be able to analyze major global issues such as inequality, terrorism, environmental challenges, and human rights concerns in a global context.
